

## DigitalRX Patient App Instructions for iPhone Users ONLY

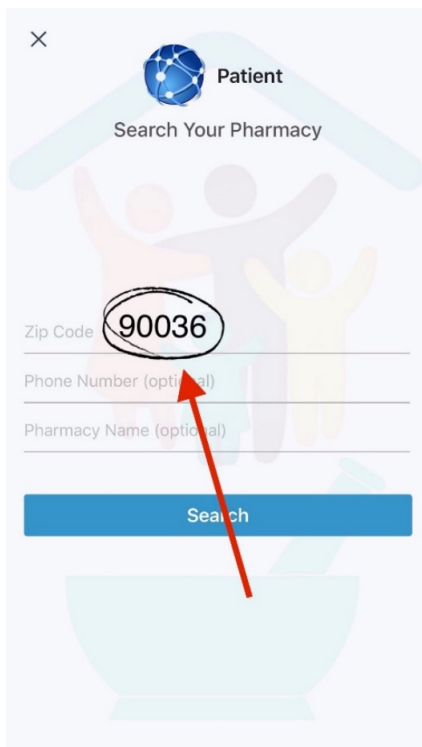

1. Open the “App Store” app on iPhone.
2. Once app is open, you will find a “search” sign at the bottom left. You will click on the search button and search “DigitalRX Patient” on the tab above.
3. You will select specifically the “DigitalRX Patient” app and click on the “Get” button to access download.
4. Exit the App Store and search for the downloaded app on your home screen and tap it to open the app.

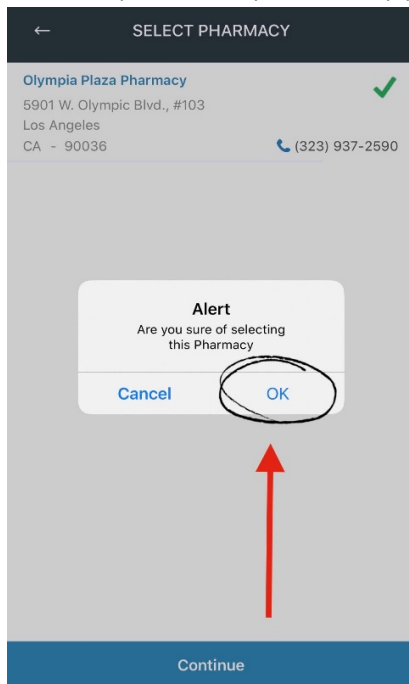

5. The option to “Choose Pharmacy” at the very bottom left of your screen will appear. Tap it to search our Pharmacy

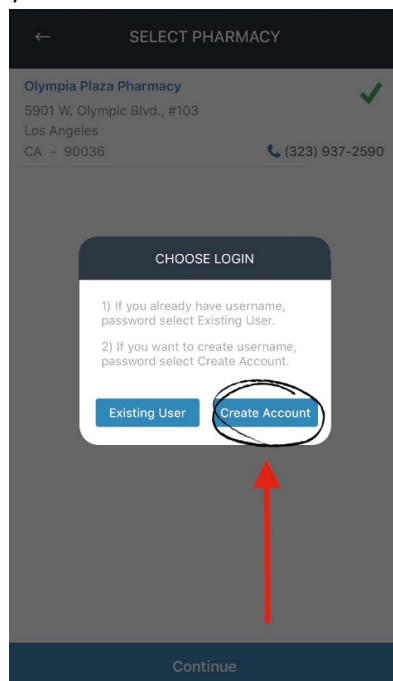

6. Go ahead and enter our Pharmacy zip code; 90036 in the “Zip Code” request.

7. "Olympia Plaza Pharmacy" is to appear, please go ahead and select the Olympia Plaza Pharmacy as your Pharmacy. "Are you sure of selecting this pharmacy?" will appear, select "Ok"

8. "Choose Login Account" will appear, select "Create Account" to register in app. Please proceed to enter all data requested. (keep in mind that you are to have a RX within 90 days to register.)

9. A alert saying “Account Created Successfully” will appear, click on “Ok” to confirm you have selected the correct Pharmacy.
